

1. Make a group of at most 5 students and prepare a write up of about 1000 words in the following topics:

- Atanasoff Berry Computer (ABC)
- Electronic Numerical Integrator and Computer (ENIAC)
- Electronic Discrete Variable Automatic Computer (EDVAC)
- Electronic Delay Storage Automatic Calculator (EDSAC)
- Difference Engine and Analytical Engine
- Napier's Bone
- Cray-1 Supercomputer
- Zuse Z1 and Colossus
- Harvard Mark I
- FORTRAN, LISP and COBOL

Focus on their predecessors, technology used, features and its uniqueness.
